

Dr. Monalisa Ghosh

Associate Editor, Discover Journals

Springer Nature

Email: monalisa.ghosh@springernature.com

Bio:

Dr. Monalisa Ghosh is a physicist by education and specialises in experimental physics research, with a focus on plasma-based synthesis of materials and coatings. She completed her PhD at the Indian Institute of Science, Bangalore, India, where she had worked on plasma-based synthesis of nanostructured carbon coatings.

Before the start of her role with Springer Nature (November 2024) as Associate Editor, she was a Postdoctoral Researcher at Ecole Polytechnique, France and Empa (Swiss Federal Laboratories for Materials), Switzerland, working on developing coatings-based solutions for different industrial applications.

Dr. Ghosh currently leads **Discover Space**, **Discover Fluid Mechanics** and soon-to-be launched **Discover Condensed Matter**.
